

M.S. in Artificial Intelligence

Concentration: AI & Advanced Computing

Student:	Jane Doe
School:	The Fu Foundation School of Engineering and Applied Science
Program Start:	Fall 2026
Status:	First semester in progress
Total Points Required:	30
Points Completed:	0
Points In Progress:	12
Remaining After This Term:	18

Current Registration - Fall 2026

Course	Title	Requirement Area	Points
COMS W4701	Artificial Intelligence	Core AI requirement	3
COMS W4771	Machine Learning	Core AI requirement	3
COMS W4705	Natural Language Processing	Core AI requirement	3
COMS W4776	Neural Networks and Deep Learning	AI & Advanced Computing concentration	3
ENGI E4000	Professional Development and Leadership	Required 0-credit milestone by end of second semester	0

Remaining Program Requirements

Requirement	Status	Remaining
Ethical AI core	Not yet started	3 points
AI & Advanced Computing concentration	1 of 4 courses in progress	9 points, including at least 1 additional CS course and 2 engineering courses
General electives / capstone / research	Not yet started	6 points
Three-semester sequence milestone	On track	Maintain core completion by the end of the second term

Program Notes

This synthetic audit follows Columbia Engineering's published M.S. in Artificial Intelligence structure: 30 points total, 12 points of core AI coursework, 12 points in a concentration, and 6 points of electives, capstone, or research. The AI & Advanced Computing concentration requires 4 courses total with a minimum of 2 AI-related Computer Science courses and 2 AI-related non-CS engineering courses.

ENGI E4000 is shown as a required 0-credit milestone because the official curriculum states it must be completed by the end of the second semester.
